You are the heart of development
A time to be brave

AVSI-USA Annual Campaign 2021-2022

In last year’s Annual Campaign, we invited you to "Expand your Horizons" and to join us as we reached out with hope towards communities fighting to counter the negative impact of the COVID pandemic. Over the difficult year, we have all experienced how much our destinies are tied to each other. The life of someone across the globe can impact mine, just as my life can impact theirs. It’s time to take a leap forward in how we conceive of our self and our responsibility towards one another, especially towards those suffering, on the margins of society and at risk of falling short of their fullest potential.

Human development is something that must concern us all. You are the heart of development. These are times that require us to be brave. AVSI-USA offers you this chance to say yes to the dramatic needs in our backyard and around the world, by supporting important projects in Mexico, Ecuador, Brazil, Haiti, Lebanon and Los Angeles.
Feed children, adolescents, and their families in Latin America
Sustain AVSI-USA’s long-term partners Crecemos (Mexico), Fundación Sembrar (Ecuador), and CREN (Brazil). Help us feed and educate vulnerable children and adolescents who struggled to attend remote schooling during COVID-19 and now need to catch up academically and heal from the psychological effects of the pandemic.

Goal: $20,000, reach 2,000 children with nutritious meals.

Rebuild schools and houses destroyed by the earthquake in Haiti
The road to recovery in Les Cayes, southern Haiti, will be long. AVSI is rebuilding houses, schools, and public buildings destroyed by the August earthquake in Les Cayes. With your help, we can keep children and adolescents involved in educational activities and safe from armed gangs.

Goal: $10,000, repair 4 damaged buildings.

Accompany Syrian refugees and host community in Lebanon
Help Syrian refugees and Lebanese families who are living below the poverty line after the most severe economic and financial crisis since the 19th century hit Lebanon. With your support, we can complete the construction of the Fadai Community Center, a space where children and adults will learn and dream, and live together in peace.

Goal: $10,000, complete and furnish 1 classroom at the Fadai Community Center.

Support adults with disabilities, veterans and formerly incarcerated persons in Los Angeles
AVSI-USA is embracing an initiative that serves the needs of people who risk being shut out of the workforce and social life: adults with disabilities, veterans, and formerly incarcerated persons. The Los Angeles Habilitation House provides jobs and friendship and is an example of people who had the courage to face a problem and create a solution.

Goal: $10,000 and 30 employees directly helped.

Multiply your impact by contributing to the AVSI-USA General Fund
Contribute to our person-centered mission by donating to AVSI-USA General Fund. The Fund allows us to respond to emergencies and enables us to leverage support from foundations, companies, and institutions. When you commit to becoming a monthly supporter, the impact of your contribution is exponential!

Goal: 50 monthly donors reached.
